BEAR SPRAYS

PRODUCED BY A GRIZZLY BEAR ATTACK SURVIVOR

BEAR ATTACK!

"Thanks to God, a friend, and pepper spray, I am still here."

— Mark Matheny, President, UDAP Industries

Mark Matheny was attacked by a female grizzly bear on a main trail. In less than half a minute, the grizzly charged and mauled Mark twice. Mark's partner, Dr. Fred Bahnson, reacted immediately to Mark's condition and treated his wounds. Fortunately Dr. Bahnson got Mark out of the woods and to the emergency room without further incident. Mark suffered extensive bite lacerations to the head and neck, bite lacerations to the right arm, and also to the left anterior chest. This bear attack motivated Mark to establish **UDAP Industries, Inc.**

STEP 1

STEP 2

HOW TO ACTIVATE:

Step 1: Pull downward on the orange shoulder strap cover to expose the spray-release ball.

Step 2: To engage the bear spray, pull the spray-release ball at desired increments or for continuous fog.

Protect your backside! UDAP offers the first revolutionary change in bear spray delivery in 20-years! The **Back Attack Pack™**.

Being prepared in bear country can be the difference between life and death. And now, you can stay safer than ever before!

UDAP Bear Spray's **Back Attack Pack™** allows you to protect yourself from unexpected charges from behind, AND even when you're pinned on the ground. Yes, you still have a line of defense!

Produced by a grizzly bear attack survivor, this product is a must-have. To be used in addition with UDAP bear sprays as a backup only.

pepper® power™

If charged by a bear while walking or standing, stay upright or slightly lean backward to optimize the direction of the bear spray. Pull the spray-release ball for a short burst, or a continuous fog of spray toward the approaching bear. Continue until bear flees.

While kneeling, stay upright, or slightly lean backward, to directly focus the bear spray towards the approaching bear. Continue until it retreats.

When attacked in prone position, pull the spray-release ball when the bear is over top of the back pack. This will focus the bear spray toward the bear's head. Sway side-to-side to maximize the spray coverage area until the bear leaves.

PEPPER SPRAYS

PRODUCED BY AN ATTACK SURVIVOR

Wisdom is Greater than Strength!

#1

KEYCHAIN FOGGER PEPPER SPRAY

- 11 g (.4 oz.)
- 10% OC Formula with 1.34% Major Capsaicinoids
- 2 Million Scoville Heat Units

#3P

JOGGER FOGGER® PEPPER SPRAY W/ JOGGER HOLSTER

- 55 g (1.9 oz.)
- 10% OC Formula with 1.34% Major Capsaicinoids
- 2 Million Scoville Heat Units

Safety is in the palm of your hand!

UDAP's **World's Hottest Formula** is rated at 3.0% Major Capsaicinoids (MC). This produces the hottest formula for Pepper Sprays Today!

Major Capsaicinoids are the chemical components of peppers that make them hot. Measuring by MC is a laboratory conducted and very accurate test for gauging hotness.

Please note: The primary deciding factor of hotness in a pepper spray is the MC rating NOT the OC rating. Without knowing what the MC percentage is, OC percentage tells you nothing about the hotness of the spray! Almost all other Pepper sprays fall between the ranges of .18% to 1.34%. With 3.0% MC, UDAP has THE HOTTEST pepper spray available!

#1WH

WORLD'S HOTTEST HOT FOGGER KEYCHAIN PEPPER SPRAY

- 11 g (.4 oz.)

UDAP BEAR SHOCK®

LIGHTWEIGHT ELECTRIC BEAR FENCES

**PROTECT
YOUR CAMP
FROM BEARS!**

#BEF
BEAR SHOCK®
ULTRA LIGHT
PERIMETER
CAMP FENCE

**ULTRA
LIGHTWEIGHT!**
Kit Only 3.7 lbs.
with Batteries

Kit Includes: 1 Energizer • 4 Fence Posts with Insulators
1 Role of Flagging Tape • 1 Hot Wire • 1 Ground Wire
1 Ground Stake • 3 Electrical Poly Wires (110 ft. each)
1 Bear Safety Tips Booklet • 1 Storage Bag

Bear Shock® perimeter electric fences help protect you and your equipment in bear country. These battery-powered products produce a highly effective shock (if touched) that can quickly convince curious, predatory or hungry bear to retreat.

Bear Shock® Ultra Lightweight (#BEF) Electric Fence is perfect for use around small camp sites when backpacking. Its contents weigh only 3.7 lbs. and fits in a small 5"x20" storage bag. The fence will enclose a 27 ft. x 27 ft. area. It's power supply will produce 5000-6000 Volts.

Bear Shock® Outfitter Camp (#CF4) Electric Fence is a larger version of the #BEF. This fence is perfect for backpacking as its contents weigh only 5.9 lbs. and fit in a small 5"x24" storage bag. It will enclose a 45 ft. x 45 ft area and it's power supply (running continuously) will last 3 to 5 weeks.

Bear Shock® is a must have! It's an economical, lightweight, portable and simple to use solution for camping safely in bear country. Not for food storage.

ACCESSORIES

#ASC

AEROSOL SAFETY CONTAINER

- ▶ Protects aerosol canisters against extreme temperatures. Resists heat!
- ▶ Container's foam filter allows pepper spray aerosol propellant to vent, but keeps the active ingredients safely contained.
- ▶ This is the recommended and approved aerosol safety container by the U.S. Forest Service.
- ▶ Ideal for transporting all sizes of bear spray canisters in vehicles and non-commercial aircraft

#BCC

NO-FED-BEAR® CANISTER CASE

- ▶ Fits the NO-FED-BEAR® (#BRC)
- ▶ Webbed straps and buckles allow easy transportation and attachment to packs, etc.
- ▶ Top zipper opening allows case to remain on canister for convenience

#2RESQ

PEPPER SPRAY RELIEVER

- ▶ 1.6 oz.
- ▶ Effective relief from pepper spray and bear spray
- ▶ Non-toxic formula neutralizes the irritating effects of Oleoresin Capsicum (OC)

IMPORTANT: Apply "UDAP RELIEVER" as quickly as possible after exposure.

#12-I

INERT TRAINING CAN

- ▶ 225 g (7.9 oz.)
- ▶ Practice makes perfect sense!
- ▶ Same spraying power as regular sprays minus the hot pepper.

#15-I Inert Training Can
(9.2 oz. / 260 g)

#GM

GETA GRIP BIKE MOUNT

- ▶ Pre-tapped holes for Water Bottle Mount
- ▶ Fits: #9, #12, & #15
- ▶ Can mount bear pepper spray almost anywhere

CHARGING-BEAR

BEAR ATTACK SIMILATOR

Education has always been a large part of UDAP Industries. Our new **Charging-Bear Simulator** is a new hands-on training system to help people understand the speed of a bear. The bear charges at speeds of 25 miles per hour and demonstrates how fast one needs to be able to access their bear spray. It offers a real life experience and may be available for special events in your local area.
